The Executive Council has been re-established by ministerial decree 304/2017. It is a statutory advisory body to the Minister of Education and Technical Education, chaired by the Deputy Minister of Education and Technical Education, and it is composed of all relevant, national-level public and private sector actors.

Main Responsibilities

- Advise the Minister of Education and Technical Education regarding the Dual System. Its decisions are binding, after being approved by the Minister.

The Central Technical Amana links the Executive Council and Governorates’ Technical Amanas. A decree will be issued to formalize the Central Technical Amana.

Main Responsibilities

- Prepare regular meetings of Executive Council.
- Review and analyze recommendations and proposals received from Governorates’ Technical Amanas.
- Draft legal ordinances required for decisions in the Executive Council for Dual System.

Governors’ Technical Amanas deliver their recommendations to the national level based on their (on-the-ground) experiences. A decree will be issued to formalize the Governors’ Technical Amanas.

Main Responsibilities

- Enhance the collaboration and resolve the challenges that do not require intervention from the national level.
- Deliver proposals and success stories to the Central Technical Amana to enhance the implementation processes of the legal Dual System ordinances.

Egyptian Dual System: Multi-Stakeholder Dialogue Platforms

**National Level**

The Executive Council has been re-established by ministerial decree 304/2017. It is a statutory advisory body to the Minister of Education and Technical Education, chaired by the Deputy Minister of Education and Technical Education, and it is composed of all relevant, national-level public and private sector actors.

Main Responsibilities

- Advise the Minister of Education and Technical Education regarding the Dual System. Its decisions are binding, after being approved by the Minister.

The Central Technical Amana links the Executive Council and Governorates’ Technical Amanas. A decree will be issued to formalize the Central Technical Amana.

Main Responsibilities

- Prepare regular meetings of Executive Council.
- Review and analyze recommendations and proposals received from Governorates’ Technical Amanas.
- Draft legal ordinances required for decisions in the Executive Council for Dual System.

Governors’ Technical Amanas deliver their recommendations to the national level based on their (on-the-ground) experiences. A decree will be issued to formalize the Governors’ Technical Amanas.

Main Responsibilities

- Enhance the collaboration and resolve the challenges that do not require intervention from the national level.
- Deliver proposals and success stories to the Central Technical Amana to enhance the implementation processes of the legal Dual System ordinances.

**Governorate Level**

Governors’ Technical Amanas deliver their recommendations to the national level based on their (on-the-ground) experiences. A decree will be issued to formalize the Governors’ Technical Amanas.

Main Responsibilities

- Enhance the collaboration and resolve the challenges that do not require intervention from the national level.
- Deliver proposals and success stories to the Central Technical Amana to enhance the implementation processes of the legal Dual System ordinances.

**Regional Level**

Regional Technical Amanas deliver their recommendations to the governors’ technical offices. A decree will be issued to formalize the Regional Technical Amanas.

Main Responsibilities

- Enhance the collaboration and resolve the challenges that do not require intervention from the national level.
- Deliver proposals and success stories to the Central Technical Amana to enhance the implementation processes of the legal Dual System ordinances.

**Mission of the Egyptian Dual System**

To contribute to building and expanding a high quality and dynamic Dual System through close multi-stakeholder collaboration at all levels that provides attractive, safe, and meaningful training opportunities for a new generation of students, increasing employability and benefiting the Egyptian economy and society.

**Vision of the Egyptian Dual System**

Effective and dynamic multi-stakeholder collaboration that fulfills the Dual System strategy within Egypt’s 2030 Sustainable Development Plan, preparing skilled and qualified technical workers in diverse and new trades according to labor market needs.
