INSTITUTE**

Conference Structure

Transformation Enablers

- **24 April:**
Enlivening Narratives
Empowering Metrics
- **26 April:**
Life-Enhancing Innovation
Guiding Regulations
- **28 April:**
Enabling Structures
Multi-Stakeholder Governance

Conference Goals

- Celebrate and learn from transformation **practitioners, partners, funders, and academics**
- Discuss entrenched transformation **challenges** and possible **solutions**
- Help enliven a community for **leading transformative change collectively**

Conference Norms

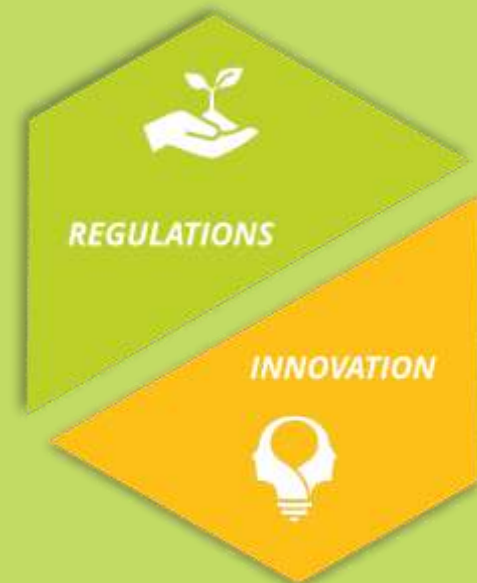

- **Embody respect** in all our interactions and patience with any technical glitches
- **Express our views** clearly and concisely
- Listen with an attitude of **seeking to understand**
- **Suspend our own judgements** and remain open to others' perspectives

Life-enhancing Innovation and Guiding Regulations

*Transformation efforts through
the lens of Governance and Democracy*

Life-enhancing Innovation emerges when we

- Provide **spaces for creative invention** (passive and active, like incentives)
- Support **continuous improvement** through e.g. rewards, knowledge networks
- Remain **agile and innovative** in continuous collaborative exchange

The Democracy and Governance lens:

- Create innovative spaces that **promote inclusion** and democratic narratives
- Ensure **innovation processes** are embedded in good **governance structures**
- Foster agility through **democratic feedback mechanisms**

Guiding Regulations are supported when we

INNOVATION

- **Balance *global to local* sustainability frameworks**
- **Compliment policies and laws with co-developed *voluntary standards***
- **Embed contributions and resource allocations to (global) *public goods***

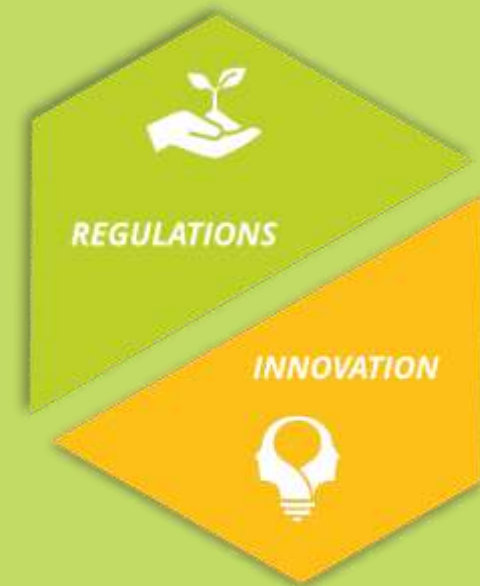

The Democracy and Governance lens:

- Advance equity and inclusion through **redistribution of resources** on different levels
- Ensure transparent and **inclusive multi-stakeholder governance** for development of laws and regulations
- Build **communities for change** and networks around voluntary standards

Innovation and Regulation – their connection

- Structures and governance systems need to **provide space** for innovation
- Regulations can offer **space, incentives and sustainability guidance** for innovation
- **Social innovation** can emerge as response to **regulation crises** (e.g. global financial and economic crises)

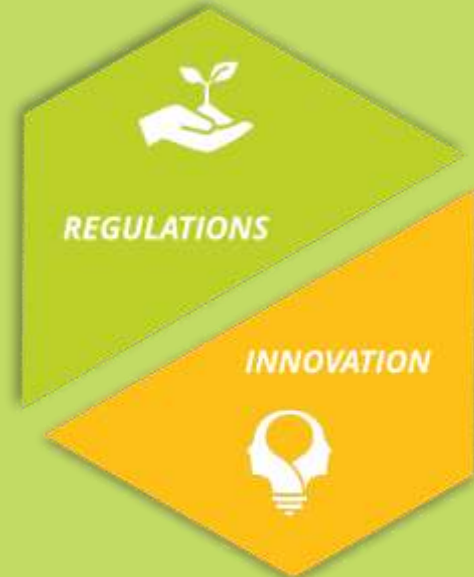

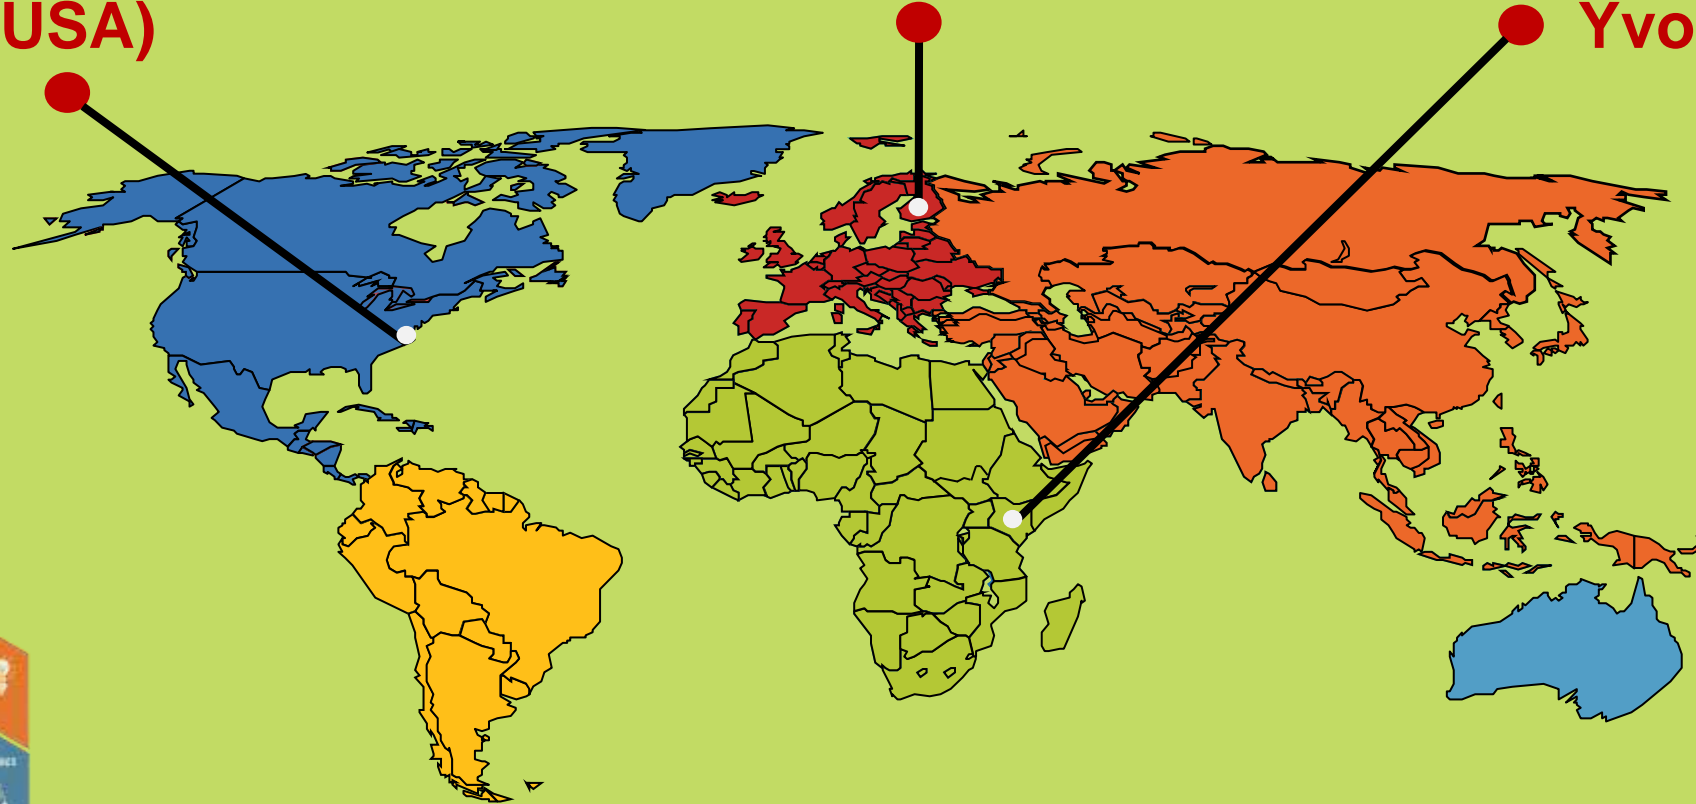

Session Speakers

**Arun Venkatesan
(USA)**

**Rilli Lappalainen
(Finland)**

**Dr. Tim Andrew &
Yvonne Waweru
(Kenya)**

Transformation Literacy Conference

INNOVATION AND REGULATION WITH
